

Numbers

by Sophia Tutorial

WHAT'S COVERED

In this lesson, you will learn how to state numerical information in Spanish. Specifically, this lesson will cover:

1. Los Números (Numbers)
 - a. Expressing Years
 - b. Stating How Many There Are

1. Los Números (Numbers)

The chart below will help you learn how to say all of the numbers you will need to know in Spanish.

Number	English	Spanish
1 - 10	one, two, three, four, five, six, seven, eight, nine, ten	uno, dos, tres, cuatro, cinco, seis, siete, ocho, nueve, diez
11-19	eleven, twelve, thirteen, fourteen, fifteen, sixteen, seventeen, eighteen, nineteen	once, doce, trece, catorce, quince, dieciséis, diecisiete, dieciocho, diecinueve
20 - 29	twenty, twenty-one, twenty-two, twenty-three, twenty-four, twenty-five, twenty-six, twenty-seven, twenty-eight, twenty-nine	veinte, veintiuno, veintidós, veintitrés, veinticuatro, veinticinco, veintiséis, veintisiete, veintiocho, veintinueve
30 - 39	thirty, thirty-one, thirty-two, thirty-three, thirty-four, thirty-five, thirty-six, thirty-seven, thirty-eight, thirty-nine	treinta, treinta y uno, treinta y dos, treinta y tres, treinta y cuatro, treinta y cinco, treinta y seis, treinta y siete, treinta y ocho, treinta y nueve
40 - 90 (follow the pattern for 30-39)	forty, fifty, sixty, seventy, eighty, ninety	cuarenta, cincuenta, sesenta, setenta, ochenta, noventa
100 - 900	one hundred, two hundred, three hundred, four hundred, five hundred, six hundred, seven hundred, eight hundred, nine hundred	ciento, doscientos, trescientos, cuatrocientos, quinientos, seiscientos, setecientos, ochocientos, novecientos
1,000	one thousand	un mil

2,000	two thousand	dos mil
1,000,000	one million	un millón
2,000,000	two million	dos millones

Note that the decimal and comma are the opposite in Spanish number notation: 1,000.00 (one thousand) in English is written as 1.000,00 (un mil) in Spanish notation.

1a. Expressing Years

The following chart provides examples to demonstrate how to communicate years in Spanish.

Year	English	Spanish
1999	nineteen ninety-nine	mil novecientos noventa y nueve
2010	two thousand ten	dos mil diez

1b. Stating How Many There Are

The following chart provides an example with the necessary vocabulary for stating how many of something there are.

Amount	English	Spanish
33	There are thirty-three pills.	Hay treinta y tres píldoras.

SUMMARY

In this lesson, you learned how to identify **numbers** in Spanish. It's important to remember that the decimal and comma are notated differently in Spanish than in English, which can cause issues with translations involving money. You also learned some useful vocabulary that will allow you to **express years** and **state how many of an item there are**

¡Buena suerte!
